SUMMARY

I am a self-taught web developer with a strong focus on web security and code best practices. With 3 years of experience, I have independently designed, developed, and deployed 4 web projects from scratch. My proficiency in MERN stack development, React.js, Redux, advanced features, and my commitment to cybersecurity make me a valuable addition to any team.

PROGRAMMING STACK (MERN)

HTML, CSS, SASS, JavaScript, ReactJS (Includes State Management) and NodeJS.

WORK EXPERIENCE

- Starlo Project
 - Description: Developed a MERN stack application with Redux for enhanced state management.
 - Role: Lead Developer
 - Duration: 6 months
- Nomovilla Project
 - Description: Created a React.js application with advanced features, utilizing Context API and Firebase for robust data management.
 - Role: Lead Developer
 - Duration: 8 months

ACHIEVEMENTS

- Successfully completed 4 self-initiated web development projects.
- Demonstrated expertise in web security and adherence to best coding practices.
- Continuously improving skills through self-study and hard work.

OBJECTIVE

I am eager to leverage my skills in web development and cybersecurity in a professional setting. As a self-motivated individual with a strong work ethic, I am excited to contribute to a dynamic team and continue expanding my knowledge.
